Superior Court of California
County of Los Angeles

MAY 31 2010

Sherri R. Carter, Executive Officer/Clerk of Court

By: Judi Lara, Deputy

1 I, David Ely, declare as follows:

2 1. The facts set forth in this declaration are within my personal knowledge
3 and, if called as a witness, I could and would competently testify as follows.

4 2. I have been retained by the plaintiff in this action to prepare district maps,
5 gather and evaluate demographic and election information, prepare data sets for statistical
6 analysis of recent elections in the City of Santa Monica, as well as to analyze
7 demographics and elections that are relevant to this action, and the remedies that are
8 appropriate for the Court to implement in the circumstances of the City of Santa Monica,
9 among other things. The summary below sets out my conclusions briefly, and the rest of
10 this declaration explains them in more detail and provides extensive evidence for those
11 conclusions.
12

13 I. Summary

14 3. There is a stark contrast between Latinos and non-Hispanic whites in the
15 City of Santa Monica in terms of health, wealth, education and other living conditions
16 relevant to drawing council districts. That contrast is apparent between the Pico
17 Neighborhood, where Latinos are concentrated within the City of Santa Monica, on the
18 one hand, and the rest of the City of Santa Monica, on the other hand. It is especially
19 apparent between the Pico Neighborhood and the neighborhood North of Montana.
20

21 4. The council district I developed comprising the Pico Neighborhood and
22 surrounding area is a legal and appropriate district for district-based elections in the City
23 of Santa Monica.

24 5. In recent elections for Santa Monica's city council, as a general matter, the
25 Latino candidates preferred by the Latino electorate in those elections almost certainly
26 receive the most votes within the council district I developed, even though they usually
27 did not receive enough votes to prevail in the at-large election system utilized by the City
28

1 of Santa Monica.
2
3

4 II. Credentials

5 6. I am the founder of Compass Demographics, a consulting and database
6 management firm specializing in projects involving demographic and election data. I
7 have extensive experience managing redistricting projects, analyzing voting behavior,
8 and analyzing demographics. I received a Bachelor of Science in Mechanical
9 Engineering and Social Sciences from the California Institute of Technology (Caltech) in
10 1987.

11 7. I have served as an expert and testified on behalf of the United States in
12 numerous cases involving voting rights issues, in which I performed analyses similar to
13 those used in this report. I have also served as a consultant and expert on behalf of private
14 plaintiffs in voting-rights litigation, challenging election systems in multiple jurisdictions
15 in California and other states. I have also served as a consultant and expert on behalf of
16 defendant jurisdictions in voting rights litigation challenging election systems or districts,
17 including defendant jurisdictions in California.

18 8. Perhaps most important to my qualifications to offer opinions in this case, I
19 recently testified in the only three cases under the CVRA to go to trial – *Jauregui v. City*
20 *of Palmdale*, Los Angeles Superior Court Case No. BC 483039; *Garrett v. City of*
21 *Highland*, San Bernardino Superior Court Case No. CIV-DS-1410696; and *Yumori Kaku*
22 *v. City of Santa Clara*, Santa Clara Superior Court Case No. 17CV319862. Following the
23 trial in the CVRA case against the City of Palmdale, the Los Angeles Superior Court
24 relied on opinions based on my data sets to find racially polarized voting in Palmdale.
25 Then, following a finding of liability, I testified again regarding appropriate remedies.
26 The Court adopted one of my district plans, and rejected a competing plan prepared by a
27 consultant for the City of Palmdale. The Court of Appeals affirmed that ruling in June
28

1 2015. Then, in the CVRA case against the City of Highland, in January 2016 the San
2 Bernardino Superior Court relied on my opinion that a district plan would be effective
3 while the competing remedial plan proposed by the City of Highland was not appropriate.
4 In each instance, the first district elections in those cities further validated my opinions.
5 Jesse Sanchez was elected to the Highland City Council, becoming the first Latino
6 council member in the nearly thirty years since the incorporation of the City of Highland.
7 Juan Carrillo was elected to the Palmdale City Council, becoming the first Latino
8 Democrat elected to the city council in the more than fifty years since incorporation of
9 the City of Palmdale. The plaintiffs, on whose behalf I testified in the CVRA case
10 against the City of Santa Clara, also prevailed at the first phase of trial addressing
11 liability; the remedy phase of trial has not yet been scheduled.
12

13 9. I have also served as a consultant to construct databases, draw district lines,
14 and prepare presentation maps and reports for many jurisdictions in conducting their
15 normal redistricting. These include statewide congressional and legislative redistricting in
16 California, as well as a variety of county boards, city councils, school boards, water
17 districts, regional transit boards, and others following the Census of 1990, 2000, and
18 2010.

19 10. A copy of my Curriculum Vitae is attached as Exhibit 1.
20

21 **III. Tasks and Materials Utilized**

22 11. Plaintiffs' attorneys asked me to perform several tasks. First, I prepared
23 data sets organizing election and demographic data for several Santa Monica City
24 Council elections, for use by Dr. J. Morgan Kousser. Second, I evaluated the
25 demographic characteristics of Santa Monica, including information concerning
26 race/ethnicity, economics and education, and developed demonstrative maps showing the
27 disparities in these areas within Santa Monica. Third, I examined the residential
28

1 distribution of successful and unsuccessful candidates for the City Council between 1998
2 and 2014. Finally, I developed an illustrative equipopulous district comprising the Pico
3 Neighborhood, based on the traditional districting criteria specified in Section 21620 of
4 the Elections Code, and evaluated how voters within that district behaved, compared to
5 the city as a whole, in recent relevant elections. To perform those tasks, I reviewed and
6 relied upon the following, which I know to be reliable and accurate:

- 7 • US Census Bureau 2010 Census Redistricting Dataset (PL94-171)
- 8 • US Census Bureau 2016 5-year American Community Survey
- 9 • US Census Bureau 2015 5-year American Community Survey
- 10 • Statewide Database Precinct Voter Statistics¹
- 11 • Los Angeles County Registrar Election Result reports, true and correct copies of
12 which are collectively attached as Exhibit 2

13
14 I also relied on addresses for council candidates provided by the City of Santa Monica in
15 their responses to Special Interrogatories 1-71, a true and correct copy of which is
16 attached as Exhibit 3.

17 18 **IV. Data Sets**

19 12. Attached hereto as Exhibit 4 are the data sets for the 1994, 1996, 2002,
20 2004, 2008, 2012, and 2016 municipal elections in the City of Santa Monica that I
21 prepared and provided to Dr. J. Morgan Kousser.

22 13. These data sets comprise election and demographic data that I know is
23 useful to Dr. Kousser's analysis, including the vote totals from each precinct, as well as
24 the percentage of voters in each precinct with a Spanish surname, the percentage of
25

26
27 ¹ The US Census Bureau and Statewide Database files are exceptionally voluminous, and are
28 therefore not attached as exhibits. If the Court wishes to have copies of those files I can provide
them in an electronic format.

1 voters in each precinct with an Asian surname and the percentage of voters in each
2 precinct who are African American and non-Hispanic white, respectively.

3 14. A Spanish surname is a commonly-used proxy for Hispanic ethnic identity
4 in determining the ethnic composition of a group of people identified by name when
5 ethnic self-identification is not practical. An Asian surname is similarly used as a proxy
6 for Asian ethnicity of a group of people. I have used this type of analysis extensively to
7 build databases to analyze voting behavior and measure potential voting strength in
8 districts, and as a foundation for expert reports in voting-rights litigation. Additionally, I
9 have used this type of analysis to provide important insights during the redistricting
10 process in a number of jurisdictions. The Census Bureau created a Spanish surname list
11 and set of governing rules for matching the list in the 1980 Census. The approved list
12 and set of rules were used in the preparation of data used in my analysis. This method of
13 Spanish surname matching and Asian surname matching have been approved in several
14 CVRA cases and FVRA cases, including those in which I have testified, for the purpose
15 of determining the Latino and Asian composition of a group of people. This surname
16 matching is the same method I used in both *Jauregui v. City of Palmdale* and *Garrett v.*
17 *City of Highland*.

18
19 15. Each of the voters on the voter lists for the 1994, 1996, 2002, 2004, 2008,
20 2012, and 2016 elections was coded to indicate whether the voter had a Spanish surname
21 or Asian surname as defined by the Census Bureau rules. This information was then
22 aggregated to the precinct level in order to produce a count for each precinct of total
23 voters, Spanish surnamed voters and Asian surnamed voters for each election. This
24 procedure is carried out on voter lists for each statewide primary and general election and
25 is available at the Statewide Database, the redistricting database for the State of
26 California used for state legislative and local districting.
27
28

1 16. I combined precinct level summaries of total voters, surname matched voters
2 and Census ethnic data of eligible voters, with precinct level election results for Santa
3 Monica City Council elections consolidated with the 1994, 1996, 2002, 2004, 2008,
4 2012, and 2016 Statewide General Elections. The results of this analysis were provided
5 to Professor J. Morgan Kousser for further analysis.
6

7 **V. Demographics of the City of Santa Monica**

8 17. According to the 2016 five-year American Community Survey conducted
9 by the United States Census Bureau, Santa Monica has a population of 92,478,
10 approximately 16.1% of which is Latino, voting age population of 79,306, 15.2% of
11 which is Latino and citizen voting age population of 70,985, 13.64% of which is Latino.
12 Santa Monica is comprised of seven distinct neighborhoods: 1) Pico; 2) North of
13 Montana; 3) Ocean Park; 4) Sunset Park; 5) Mid-City; 6) Wilmont; and 7) Northeast. The
14 Pico Neighborhood is generally bounded by Lincoln Blvd. to the west, Pico Blvd. to the
15 south, Centinela Ave. to the east and Olympic Blvd. to the north. While most of Santa
16 Monica is relatively wealthy, well-educated, and desirable, the Pico Neighborhood is a
17 notable exception, and there are significant differences between other neighborhoods as
18 well.

19 18. To illustrate the disparity between the Pico Neighborhood and other
20 neighborhoods in Santa Monica, I created color-coded maps based on Census data of
21 various characteristics – ethnicity, housing, income, and education.

22 19. Attached hereto as Exhibit 5 is a true and correct color-coded map
23 illustrating the concentration of Latino citizen voting age population (“CVAP”), i.e.
24 eligible voters. As shown in Exhibit 5, Latino CVAP is highest in the Pico
25 Neighborhood (the area in the map bounded by a thick black line). Attached hereto as
26 Exhibit 6 is a true and correct color-coded map illustrating the concentration of non-
27 Hispanic white citizen voting age population. In direct contrast to the Latino
28

1 concentration in the Pico Neighborhood, non-Hispanic white CVAP is lowest in the Pico
2 Neighborhood and highest in the region north of Wilshire Blvd. Non-Hispanic whites
3 represent the largest group of eligible voters in Santa Monica. Latinos represent the
4 second-largest group of eligible voters in Santa Monica, next to non-Hispanic whites.

5 20. Attached hereto as Exhibit 7 is a true and correct color-coded map
6 illustrating the income disparity in the City of Santa Monica. As shown in Exhibit 7, the
7 residents in the Pico Neighborhood have a much lower median income than the residents
8 in the rest of Santa Monica, while residents North of Montana have a much higher
9 median income.

10 21. As with income, there is also a significant disparity in housing between the
11 areas of the City of Santa Monica. Attached hereto as Exhibit 8 is a true and correct
12 color-coded map illustrating the percentage of renter-occupied residences, as opposed to
13 owner-occupied residences, in the areas of the City of Santa Monica. As shown in Exhibit
14 8, the residents in the northern portion of the City of Santa Monica are predominately
15 homeowners while the residents in the Pico Neighborhood are generally renters.

16 22. Similarly, a high percentage of residents in the Pico Neighborhood live in
17 overcrowded housing – measured by the U.S. Census Department based on number of
18 persons per room – while overcrowded housing is almost non-existent in the northern
19 portion of Santa Monica. Attached hereto as Exhibit 9 is a true and correct color-coded
20 map illustrating the prevalence of overcrowded housing in the City of Santa Monica.

21 23. Attached hereto as Exhibit 10 is a true and correct color-coded map
22 illustrating the distribution of single detached housing units in the City of Santa Monica.
23 Residents of the North of Montana neighborhood are predominately housed in single
24 family housing while most residents of the Pico neighborhood reside in multi-unit
25 housing.
26

27 24. There is also a drastic difference in education level between residents of
28

1 the Pico Neighborhood and the rest of Santa Monica, respectively. Attached hereto as
2 Exhibit 11 is a true and correct color-coded map illustrating the percentage of adults with
3 any college degree in the City of Santa Monica. As shown in Exhibit 11, there is a much
4 lower percentage of college graduates in the Pico Neighborhood than in the rest of the
5 City of Santa Monica.

6
7 **VI. Residential Distribution of Council Candidates**

8 25. In order to examine the success of council candidates from different areas
9 of the city, I geocoded the addresses provided by the city for council candidates from
10 regular council elections from 1998 to 2014 and grouped them into four geographic areas.
11 The four areas are separated from South to North by Pico Blvd, Wilshire Blvd, and
12 Montana Ave. Attached hereto as Exhibit 12 is a true and correct map showing the
13 distribution of candidate addresses among the four areas, and highlighting the addresses
14 of successful candidates. Attached hereto as Exhibit 13 is a true and correct table listing
15 candidate names and addresses used in this analysis. Attached hereto as Exhibit 14 is a
16 true and correct table summarizing the characteristics of the four areas and the candidates
17 in each area. As this table makes clear, the at-large election system has resulted in a large
18 residential overrepresentation for the neighborhood north of Montana Ave (35.5% of
19 election wins for 12% of population), and a large underrepresentation for the
20 neighborhoods between Pico and Wilshire (3.2% of wins for 31.8% of population). Due
21 to this combination, the neighborhood north of Montana has had nearly 30 times the
22 number of election wins relative to population as the Mid-City and Pico neighborhoods.
23 This analysis indicates that a district election system would improve representation for
24 the Pico Neighborhood as well as for Latinos and others outside of the Pico
25 neighborhood, but south of Wilshire Blvd.

1 **VII. Illustrative Pico Neighborhood District Map**

2 26. In order to gauge the remedial effectiveness of district-based elections for
3 the Santa Monica City Council, I developed a district comprising the Pico Neighborhood
4 with approximately one-seventh of the population of Santa Monica (because there are
5 currently seven members of the Santa Monica City Council). A true and correct copy of
6 the map of the district I developed is attached as Exhibit 15. The district is bounded by
7 the solid black line.

8 27. Using the Maptitude software that I use in nearly all of my demographics
9 and districting work, and data from the U.S. Census Department, I determined the
10 population and ethnic composition of the district depicted in Exhibit 15. A true and
11 correct copy of a summary of the population and other characteristics of the district is
12 attached as Exhibit 16. I also used the Maptitude software in the process of drawing the
13 district.
14

15 28. Consistent with Elections Code Section 21620, the population of each
16 council district for a charter city should be generally equal. Population equality is also a
17 requirement of the U.S. Constitution. Of course, perfect population equality is not
18 possible; generally, population disparity should not exceed ten percent (10%). In other
19 words, the least-populated district should have no less than 90% of the population of the
20 most-populated district. The population of the district I developed is within the
21 acceptable range, particularly to satisfy both state and federal law, and any disparity in
22 population is justified by the other traditional districting criteria discussed below as well
23 as the remedial purpose of the district.

24 29. Latinos comprise 33.8% of the population, 30.3% of the voting-age-
25 population, and 30.0% of the eligible voters in the district I developed. There are also
26 significant Asian and African American concentrations in the district, so the White Non-
27 Latino community makes up only 40.6% of the population of the district compared to
28

1 70% of the population of the City. I find that each of these values is instructive of the
2 likely behavior of an election district. While the percentage of eligible voters is most
3 often analyzed, the voting-age-population is also instructive because non-citizens of
4 voting age may become naturalized and thus become eligible to vote, and non-voting-age
5 individuals also become eligible voters upon turning 18 years old if they are citizens.
6 Therefore, the population and voting-age-population percentages are indicative of what a
7 district will look like in the future. While the Pico Neighborhood District does not have a
8 Latino majority, it has a significantly higher proportion of Latinos than the city as a
9 whole and it is majority minority. For the sake of completeness, I've also prepared a
10 table showing the demographics of each the 5 precincts wholly with the Pico
11 Neighborhood district; a true and correct copy of that table is attached as Exhibit 17
12

13 30. In drawing the district depicted in Exhibit 15, I considered the criteria set
14 forth in Elections Code Section 21620, and only those criteria. Areas with similar
15 demographics (e.g. socio-economic status) are grouped together where possible; natural
16 boundaries such as main roads and existing precinct boundaries are used as district
17 boundaries where possible; and race is not the predominate factor in drawing the district.
18 The traditional districting criteria of geography, topography, cohesiveness, contiguity,
19 integrity, and compactness of territory, and community of interest of the districts, are all
20 properly accounted for in the district I developed. Importantly, the district I developed
21 properly recognizes that the Pico Neighborhood has a neighborhood identity that is
22 significantly different than the rest of the City of Santa Monica, particularly the area of
23 Santa Monica north of Wilshire Blvd. and therefore should be in separate districts from
24 one another except as required to satisfy population equality.
25
26
27
28

1 **VIII. Electoral Behavior of the Pico Neighborhood District**

2 31. In order to gauge the likely remedial effectiveness of the Pico
3 Neighborhood District – in other words, whether the Pico Neighborhood District would
4 give the Latino community in the City of Santa Monica an opportunity to elect candidates
5 of its choice or influence the outcome of elections for the Santa Monica City Council – I
6 also investigated how the Pico Neighborhood District behaved in the 1994, 2004, and
7 2016 elections. I chose those specific elections because they are relatively recent, and I
8 understand the Latino-preferred candidate in each instance was clear, and in each
9 instance the Latino-preferred candidate lost in the at-large election system currently used
10 by the City of Santa Monica.

11 32. Based upon my analysis of the 1994 election, the Latino-preferred
12 candidate, Tony Vazquez, would have prevailed in the Pico Neighborhood District, even
13 though he was defeated citywide. Attached hereto as Exhibit 18 is a true and correct
14 summary of the vote totals for each candidate within the Pico Neighborhood District,
15 calculated by three different methods: “narrow,” “expansive” and “hybrid.” Specifically,
16 the “narrow” method of calculating vote totals within the Pico Neighborhood District
17 includes only the results from only the precincts that are wholly within the Pico
18 Neighborhood District. The “expansive” method of calculating vote totals within the
19 Pico Neighborhood District includes the results from all voting precincts which fall
20 substantially within the Pico Neighborhood District. The “hybrid” method of calculating
21 vote totals within the Pico Neighborhood District includes the results from all voting
22 precincts which fall substantially within the Pico Neighborhood District, but weights the
23 precinct vote totals based on the proportion of the precinct falling within the Pico
24 Neighborhood District. This is the same sort of analysis I have done in other voting
25 rights cases, as well as in my work for jurisdictions developing their own election
26
27
28

1 districts. Based on all three methods, Tony Vazquez received the most votes in the Pico
2 Neighborhood District.

3 33. Based upon my analysis of the 2004 election, the Latino-preferred
4 candidate, Maria Loya, would have prevailed in the Pico Neighborhood District, even
5 though she was defeated citywide. Attached hereto as Exhibit 19 is a true and correct
6 color-coded map illustrating the percentage of voters in each precinct who cast a vote for
7 Maria Loya. As is apparent from even a cursory review of Exhibit 19, voters within the
8 Pico Neighborhood, and more generally in the Pico Neighborhood District I developed,
9 supported Maria Loya at much higher levels than voters in the rest of the city. Latinos
10 overwhelmingly supported Maria Loya, while non-Latino Whites gave her very little
11 support, as I understand from Dr. Kousser's analysis. Attached hereto as Exhibit 20 is a
12 true and correct summary of the vote totals for each candidate within the Pico
13 Neighborhood District, calculated by three different methods: "narrow," "expansive" and
14 "hybrid", as described above. Based on the all three methods, Maria Loya received the
15 most votes in the Pico Neighborhood District. This analysis is particularly relevant
16 because Maria Loya is a resident of the Pico Neighborhood District, as she was during
17 the 2004 election.
18

19 34. Based upon my analysis of the 2016 election, the Latino-preferred
20 candidate, Oscar de la Torre, would almost certainly have finished first among residents
21 in the Pico Neighborhood District, even though he was defeated citywide. Attached
22 hereto as Exhibit 21 is a true and correct color-coded map illustrating the percentage of
23 voters in each precinct who cast a vote for Oscar de la Torre. As is apparent from even a
24 cursory review of Exhibit 21, voters within the Pico Neighborhood, and more generally
25 in the Pico Neighborhood District I developed, supported Oscar de la Torre at much
26 higher levels than voters in the rest of the city. Latinos overwhelmingly supported Oscar
27 de la Torre, while non-Latino Whites gave him very little support, as I understand from
28

1 Dr. Kousser's analysis. Attached hereto as Exhibit 22 is a true and correct summary of
2 the vote totals for each candidate within the Pico Neighborhood District, calculated by
3 three different methods: "narrow," "expansive" and "hybrid", as described above. Based
4 on the narrow method, Oscar de la Torre almost certainly received more votes than Terry
5 O'Day (the other resident candidate) in the Pico Neighborhood District. Although the
6 "expansive" and "hybrid" methods give Terry O'Day more votes, if the patterns of
7 support in precincts wholly inside and wholly outside the district are also found within
8 the precincts only partially in the district, Oscar de la Torre in all probability actually
9 received more votes within the district.

10
11 35. Taking these results together, this analysis indicates that Latino-preferred
12 candidates can prevail, and have prevailed, in the Pico Neighborhood District, even
13 though they have not been so successful in at-large elections. Therefore, I believe that
14 this district would provide a meaningful opportunity for Latinos to elect candidates of
15 their choice.

16
17 I declare under penalty of perjury under the laws of the State of California that the
18 foregoing is true and correct.

19 Executed on this 30th day of May 2018 at San Gabriel, California.

Employment:

2007 to present

David Ely is the president and founder of Compass Demographics, a consulting and database management firm specializing in projects involving census and election data, redistricting projects, demographic analysis, and analysis of voting behavior.

1986 to 2007

Director of Research for the Redistricting and Reapportionment practice of Pactech Data and Research, Pasadena, California. As Director of Research, Mr. Ely testified or consulted to counsel in a variety of litigation involving the configuration of election districts as well as providing database construction and redistricting consulting for numerous jurisdictions.

Education:

California Institute of Technology in Pasadena, CA with a B.S. in Social Sciences and Mechanical Engineering in 1987.

Redistricting Consulting

Activities include database construction, demographic and voter analysis, development of districting plans, public hearings and presentation of plans, technical assistance, and analysis of alternative redistricting plans.

**Los Angeles County
Registrar-Recorder/County Clerk**

Certificate of the canvass of the election returns

I, CONNY B. McCORMACK, Registrar-Recorder/County Clerk of the County of Los Angeles, of the State of California, DO HEREBY CERTIFY that pursuant to the provisions of Section 15300 et seq. of the California Elections Code, I did canvass the returns of the votes cast for each elective office and/or measure(s) in the

SANTA MONICA CITY

At the General Election, held on the 5th day of November, 2002.

I, FURTHER CERTIFY that the Statement of Votes Cast, to which this certificate is attached, shows the total number of ballots cast in said jurisdiction, and the whole number of votes cast for each candidate and/or measure(s) in said jurisdiction in each of the respective precincts therein, and the totals of the respective columns and the totals as shown for each candidate and/or measure(s) are full, true and correct.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal this 2nd day of December, 2002.

Conny B. McCormack

**Los Angeles County
Registrar-Recorder/County Clerk**

Certificate of the canvass of the election returns

I, CONNY B. McCORMACK, Registrar-Recorder/County Clerk of the County of Los Angeles, of the State of California, DO HEREBY CERTIFY that pursuant to the provisions of Section 15300 et seq. of the California Elections Code, I did canvass the returns of the votes cast for each elective office and/or measure(s) in

SANTA MONICA CITY

at the General Election, held on the 2nd day of November, 2004.

I, FURTHER CERTIFY that the Statement of Votes Cast, to which this certificate is attached, shows the total number of ballots cast in said District, and the whole number of votes cast for each candidate and/or measure(s) in said District in each of the respective precincts therein, and the totals of the respective columns and the totals as shown for each candidate and/or measure(s) are full, true and correct.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal this 29th day of November, 2004.

Conny B. McCormack

Los Angeles County
Registrar-Recorder/County Clerk

Certificate of the Canvass of the Election Returns

I, *DEAN C. LOGAN*, Registrar-Recorder/County Clerk of the County of Los Angeles, of the State of California, DO HEREBY CERTIFY that pursuant to the provisions of Section 15300 et seq. of the California Elections Code, I did canvass the returns of the votes cast for each elective office and/or measure(s) for

Santa Monica-Malibu Unified School District

at the General Election, held on the 4th day of November, 2008.

I FURTHER CERTIFY that the Statement of Votes Cast, to which this certificate is attached, shows the total number of ballots cast in said jurisdiction and the whole number of votes cast for each candidate and/or measure(s) in said jurisdiction in each of the respective precincts therein, and the totals of the respective columns and the totals as shown for each candidate and/or measure(s) are full, true and correct.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal this 1st day of December, 2008.

Dean Logan
DEAN C. LOGAN
Registrar-Recorder/County Clerk
County of Los Angeles

Los Angeles County
Registrar-Recorder/County Clerk

Certificate of the Canvass of the Election Returns

I, DEAN C. LOGAN, Registrar-Recorder/County Clerk of the County of Los Angeles, of the State of California, DO HEREBY CERTIFY that pursuant to the provisions of Section 15300 et seq. of the California Elections Code, I did canvass the returns of the votes cast for each elective office and/or measure(s) for

Santa Monica City

at the General Election, held on the 6th day of November 2012.

I FURTHER CERTIFY that the Statement of Votes Cast, to which this certificate is attached, shows the total number of ballots cast in said jurisdiction, and that the whole number of votes cast for each candidate and/or measure(s) in said jurisdiction in each of the respective precincts therein, and the totals of the respective columns and the totals as shown for each candidate and/or measure(s) are full, true and correct.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal this 30th day of November 2012.

Dean Logan

Los Angeles County
Registrar-Recorder/County Clerk

Certificate of the Canvass of the Election Returns

I, DEAN C. LOGAN, Registrar-Recorder/County Clerk of the County of Los Angeles, of the State of California, DO HEREBY CERTIFY that pursuant to the provisions of Section 15300 et seq. of the California Elections Code, I did canvass the returns of the votes cast for each elective office and/or measure(s) for

Santa Monica City

at the General Election, held on the 8th day of November 2016.

I FURTHER CERTIFY that the Statement of Votes Cast, to which this certificate is attached, shows the total number of ballots cast in said jurisdiction, and that the whole number of votes cast for each candidate and/or measure(s) in said jurisdiction in each of the respective precincts therein, and the totals of the respective columns and the totals as shown for each candidate and/or measure(s) are full, true and correct.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal this
2nd day of December 2016.

Dean Logan
DEAN C. LOGAN
Registrar-Recorder/County Clerk
County of Los Angeles

19 Defendants.

CASE NO.: BC 616804

PLAINTIFF CITY OF SANTA MONICA'S
SUPPLEMENTAL RESPONSES TO
PLAINTIFF MARIA LOYA'S SPECIAL
INTERROGATORIES (SET ONE)

Assigned to Hon. Yvette M. Palazuelos

20 PROPOUNDING PARTY: Plaintiff Maria Loya
21 RESPONDING PARTY: Defendant City of Santa Monica
22 SET NO.: One

23 Pursuant to California Code of Civil Procedure section 2031.210 *et seq.*, Defendant City of
24 Santa Monica ("City"), hereby objects and responds to Plaintiff Maria Loya's First Set of Special
25 Interrogatories ("Requests"):
26
27
28

RECEIVED
JUN 18 2011

1 1. City objects to the Interrogatories, and each Interrogatory therein, to the extent that
2 they seek responses and information inconsistent with, or beyond the scope and requirements of the
3 California Code of Civil Procedure, the applicable Local Rules or any other applicable Rules.

4 2. City objects to the Interrogatories to the extent that they call for information protected
5 from disclosure by the attorney-client privilege, attorney work product doctrine, joint defense
6 privilege, any state or federal right of privacy, or any other privilege that may apply. To the extent
7 City discloses any information subject to the attorney-client privilege, attorney work product
8 doctrine, joint defense privilege, any state or federal right of privacy or other applicable privilege,
9 such disclosure is inadvertent and does not constitute a waiver of the privilege. Nothing contained
10 herein is intended to be or should be construed as a waiver of the attorney-client privilege, attorney
11 work product doctrine, joint defense privilege, any state or federal right of privacy, or any other
12 applicable privilege, protection, or doctrine.

13 3. City objects to the Interrogatories to the extent they seek information that is neither
14 relevant to the subject matter of this action nor reasonably calculated to lead to the discovery of
15 admissible evidence.

16 4. City objects to the Interrogatories to the extent they are overbroad, or that requiring
17 them to answer would result in "unwarranted annoyance, embarrassment, or oppression, or undue
18 burden and expense." Cal. Code Civ. Proc. § 2023.010(c).

19 5. City objects to the Interrogatories to the extent that they call for examination of
20 information that is not within their possession, custody, or control.

21 6. City objects to the Interrogatories to the extent that they are predicated upon
22 erroneous assumptions or to the extent that they state incorrect facts. When City responds to these
23 Interrogatories, City does not agree to these assumptions or factual predicates and specifically
24 reserves the right to challenge any of the assumptions or factual predicates contained in the
25 Interrogatories.

26 7. City objects to the Interrogatories to the extent that they seek information that is not
27 described with reasonable particularity or is unlimited as to time, and thus is overly broad, unduly
28 burdensome, and oppressive.

1 **RESPONSE TO SPECIAL INTERROGATORY 3:**

2 906 9th Street, #2, Santa Monica, CA 90403, 2014 election.

3 **SPECIAL INTERROGATORY NO. 4**
